

Oliver S. Flint, Jr.

1931-2019

On many occasions over the last decade or so, Joaquin Bueno, his wife Sylvia, and their family attended Thanksgiving dinners at the home of Oliver and Carol Flint. At what would be his last Thanksgiving, in November of 2018, Ollie mentioned to Joaquin that he wished to write his memoirs, beginning with the sentence, "My name is Oliver and I am an Entomologist." Ollie passed away before he could write his life's story, but these simple words capture the essence of a kind, generous man and a great entomologist.

Oliver Simeon Flint, Jr., was born in Amherst, Massachusetts, on October 10, 1931. He received his B.S. from the University of Massachusetts in 1953, with *magna cum laude* honors, his M.S. degree from the same university in 1955, and his Ph. D. from Cornell University in 1960. He was a National Science Foundation fellow from 1957-1959 while at Cornell. Upon graduation he was then employed as Associate Curator in the Department of Entomology, National Museum of Natural History, Smithsonian Institution, from 1961-1965 and then as Supervisor and Curator of the Division of Neuropteroids from 1965 until his retirement in 1995. After his retirement and until his death on May 18, 2019, he was Emeritus Curator at the NMNH. During his long career at the NMNH, Dr. Flint curated numerous insect orders, among them the aquatic insect orders Trichoptera (caddisflies), Megaloptera (fishflies), Ephemeroptera (mayflies), Plecoptera (stoneflies), and Odonata (dragonflies) as well as the terrestrial orders Neuroptera (lacewings), Mecoptera (scorpionflies), and Raphidioptera (snakeflies) – a collection of about 12,000 species and more than 400,000 specimens.

Over the course of his long career he authored some 250 scientific publications. His first paper on insects, a new record of a cockroach, was published in 1951 when he was just 20 years old. His first paper on caddisflies was published in 1956 a result of his master's thesis work on the caddisfly *Frenesia*. He continued to publish productively until just before his death. Several papers will appear posthumously.

In the caddisflies, Dr. Flint described more than 1,152 species, 23 genera, and 1 family during his career. In addition, his revisionary work, beginning with a series of papers reassessing the type material of earlier workers such as Brauer, Hagen, and Banks, and continuing through large faunistic studies and generic revisions, created a foundation of knowledge on caddisflies, especially of the Neotropics, that presents an enduring legacy. Accompanying this published record are the 1000s of specimens, collected by Ollie from throughout the Neotropics and beyond, that have contributed to the study of the group by numerous other workers. Ralph Holzenthal's own dissertation research and those of 9 of his PhD students depended almost entirely on specimens collected by Dr. Flint. Scores of other students and researchers, spanning at least 3 academic generations, depended on his published works and the specimens he accumulated, expertly curated, and generously shared.

His wife, Carol Flint, was his inseparable companion during his many field trips and also provided support and assistance in the museum. She and Ollie were also extremely gracious, kind, and welcoming to the many visitors who

traveled to Washington, D.C., to work on the collection of Trichoptera and other orders under Ollie's care at the Smithsonian.

Throughout his career, Dr. Flint received significant honors from organizations including the Entomological Society of America, the North American Benthological Society (now Society for Freshwater Science), Sigma Xi, and Phi Kappa Phi. He also received the "Diploma al Merito" from the Universidad Nacional de La Plata, Argentina, the "Award of Excellence in Benthic Science" from NABS (SFS), and the Thomas Jefferson Medal for Outstanding Contributions to Natural Science from the Virginia Museum of Natural History Foundation in 2016. In 2006, he was honored for his contributions to world Trichopterology at the 12th International Symposium on Trichoptera in Mexico City. In addition, three genera and more than 93 species in 14 insect orders have been named in Dr. Flint's honor to recognize his extensive contributions to the field.

He is survived by his wife Carol Flint, his daughters Cathy, Lisa, and Maria, and their mother, Ruth, and four grandsons. A memorial service was held for Dr. Flint on June 15, 2019, at Christ Church in Alexandria, Virginia, and attended by family and friends. John Morse, John Weaver, Ralph Holzenthal, and Lourdes Chamorro represented the Trichoptera community at the service. Dr. Torsten Dikow, Ollie's colleague at the NMNH, organized a celebration of his life and scientific career at the Natural History building on October 7, 2019. This celebration was attended by about 100 of Ollie's friends, colleagues, and family. A summary of the ceremony, as well as presentations by participants, can be found on the blog post established by Dr. Dikow <<https://nmnh.typepad.com/asiloidflies/2019/12/ollie-flint-1931-2019.html>>. In addition, an obituary was posted on the NMNH's website at <<https://naturalhistory.si.edu/staff/oliver-flint>>. A more comprehensive obituary, composed by Steven Roble, has been published in *Banisteria* (2019, no. 52: 74-88), the semiannual journal of the Virginia Natural History Society.

While Ollie's scientific contributions were monumental and will be long lasting value, he will also be remembered for his humanity, especially the generosity and kindness he showed to all those who interacted with him.

"My name is Oliver and I am an Entomologist."

Ralph Holzenthal & Joaquin Bueno-Soria, with contributions by John Morse, Torsten Dikow, and Steven Roble. January, 2020

After Ollie's passing, the curatorial responsibility for the Trichoptera collection was assumed by Dr. Torsten Dikow, Curator of Diptera, National Museum of Natural History. Dr. Dikow's office is on the same floor in the Natural History Building as the caddisfly collection. Dr. Dikow welcomes loans of specimens and visits to the collection as he is committed to maintaining the vitality of the material Ollie cared for over so many decades. Inquires should be sent directly to Dr. Dikow, at DikowT@si.edu.

List of Trichoptera species described by Oliver Flint

Anomalopsychidae Flint, 1981

Antipodoeciidae

Anomalopsyche

ocellata Flint, 1967 = *Anomalopsyche minuta* (Schmid, 1957) in Anomalopsychidae

Contulma

cranifer Flint, 1969 in Anomalopsychidae
adamsae Holzenthal & Flint, 1995
bacula Holzenthal & Flint, 1995
caldensis Holzenthal & Flint, 1995
cataracta Holzenthal & Flint, 1995
colombiensis Holzenthal & Flint, in Flint, 1991
costaricensis Holzenthal & Flint, 1995
echinata Holzenthal & Flint, 1995
ecuadorensis Holzenthal & Flint, 1995
inornata Holzenthal & Flint, 1995
lanceolata Holzenthal & Flint, 1995
nevada Holzenthal & Flint, 1995
papallacta Holzenthal & Flint, 1995
penai Holzenthal & Flint, 1995
sancta Holzenthal & Flint, 1995
spinosa Holzenthal & Flint, in Flint, 1991
talamanca Holzenthal & Flint, 1995
tapanti Holzenthal & Flint, 1995
tica Holzenthal & Flint, 1995
tijuca Holzenthal & Flint, 1995
valverdei Holzenthal & Flint, 1995

Brachycentridae

Adicophleps

hitchcocki Flint, 1965

Brachycentrus

(*Synchnothrix*) Flint, 1984

Brachycentrus

appalachia Flint, 1984
solomani Flint, 1984
bifurcatus Flint, 1983
nublensis Flint, 1969

Calamoceratidae

Anisocentropus

atropurpureus Flint, 2000

Banyallarga

argentinica Flint, 1983
yungensis Flint, 1983

Phylloicus

farri Flint, 1968
fenestratus Flint, 1974
monticolus Flint, 1968
plaumanni Flint, 1983
pulchrus Flint, 1964

Ecnomidae

Austrotinodes

adamsae Flint, 1996
amazonensis Flint & Denning, 1989
ancylus Flint & Denning, 1989
ariasi Flint & Denning, 1989
armiger Flint, 1983
bracteatus Flint & Denning, 1989
canoabo Flint & Denning, 1989
cekalovici Flint, 1969

chihuahua Flint & Denning, 1989
contubernalis Flint & Denning, 1989
fortunata Flint & Denning, 1989
freytagi Flint & Denning, 1989
fuscomarginatus Flint & Denning, 1989
irwini Flint, 1973
labiatus Flint & Sykora, 2004
mexicanus Flint, 1973
neblinensis Flint & Denning, 1989
nielseni Flint & Denning, 1989
panamensis Flint, 1973
paraguayensis Flint, 1983
picada Flint, 1983
prolixus Flint & Denning, 1989
recurvatus Flint, 1983
sedmani Flint, 1973
tuxtlaensis Flint & Denning, 1989

Glossosomatidae

Cariboptila

orophila Flint, 1964
aurulenta Flint, 1974
awawak (Flint), 1968 in Campsiophora
calcigena Flint, 1974
hispaniolica Flint, 1974
jamaicensis Flint, 1968
mathisi Flint & Sykora, 2004
paradoxa Flint & Sykora, 2004
pedophila (Flint), 1964 in Campsiophora
trispinata Flint, 1992

Culoptila

costaricensis Flint, 1974
montanensis Flint, 1967
nahualt Flint, 1974
tarascanica Flint, 1974

Itauara

amazonica (Flint), 1971 in Antoptila
plaumanni (Flint), 1974 in Antoptila

Mastigoptila

curvicornuta Flint, 1967
ecornuta (Flint), 1974
ventricornuta Flint, 1967

Mortoniella

aequalis (Flint), 1963 in Mexitrichia
angulata Flint, 1963
apiculata Flint, 1963
argentinica Flint, 1974
aries (Flint), 1963 in Mexitrichia
attenuata (Flint), 1963 in Mexitrichia
catarinensis (Flint), 1974 in Mexitrichia
elongata (Flint), 1963 in Mexitrichia
enchrysa Flint, 1991
florica (Flint), 1974 in Mexitrichia
guairica (Flint), 1974 in Mexitrichia
hodgesi Flint, 1963
iridescens Flint, 1991
leei (Flint), 1974 in Mexitrichia
limona (Flint), 1981 in Mexitrichia
macarenica (Flint), 1974 in Mexitrichia
pacuara (Flint), 1974 in Mexitrichia
pocita (Flint), 1983 in Mexitrichia
punensis (Flint), 1983 in Mexitrichia
roldani Flint, 1991
rovira (Flint), 1974 in Mexitrichia
simla (Flint), 1974 in Mexitrichia
spinulata (Flint), 1991 in Mexitrichia
velasquezi (Flint), 1991 in Mexitrichia

Protoptila

- bicornuta Flint, 1963
 boruca Flint, 1974
 burica Flint, 1974
 cana Flint, 1974
 choluteca Flint, 1974
 chontala Flint, 1974
 colombiensis Flint, 1974

**Taxa named in honor of
Oliver S. Flint, Jr. and Carol Flint**

(3 genera, 99 species in 11 orders by 86 authors (so far))

Neuroptera

Genus:

Flintoconis Sziráki, 2007 (Coniopterygidae) (2 spp.)

6 Species:

- Coniopteryx flinti Meinander, 1975 (Coniopterygidae)
- Megalomus flinti (Nakahara, 1965), Spinomegalomus (Hemerobiidae)
- Nipponeurorthus flinti U. Aspöck & H. Aspöck, 2008 (Nevrorthidae)
- Semidalis flinti Meinander, 1972 (Coniopterygidae)
- Tytomyia flinti Tjeder & Hansson, 1992 (Ascalaphidae, now in Myrmeleontidae)
- Vieira flinti Sosa & C. Tauber, 2017 (Chrysopidae)

Megaloptera (2 species)

- Corydalus flinti Contreras-Ramos, 1998 (Corydalidae)
- Protohermes flinti S.-y. Liu et al., 2007 (Corydalidae)

Plecoptera (9 species)

- Acroneuria flinti Stark & Gaufin, 1976
- Alfonsoperla flinti McLellan & Zwick, 2007
- Anacroneuria flinti Stark & Sivec, 1998
- Enderleina flinti Stark, 1989
- Gripopteryx flinti Froehlich, 1993
- Macrogynoplax flinti Stark, 1996
- Megaleuctra flinti Baumann, 1973
- Neoperla flinti Sivec, 1984
- Tupiperla flinti Froehlich, 2002

Trichoptera

Genus:

- Flintiella Angrisano, 1995 (15 species)
- Osfliitia Calor & Holzenthal, 2008 (1 species)

53 Species:

Calamoceratidae

Phylloicus flinti Prather, 2003

Dipseudopsidae

Dipseudopsis flinti Weaver and Malicky, 1994

Dipseudopsis oliveri Oláh & Johanson, 2010

Glossosomatidae

Agapetus flinti Etnier, Parker, & Baxter Jr, 2010

Itauara flinti Robertson & Holzenthal, 2011

Mortonella flinti Sykora, 1999

Paduniella flinti Johanson & Oláh, 2010

Goeridae

Goerita flinti Parker, 1999

Helicopsychidae

Helicopsyche flinti Johanson, 1999

Hydrobiosidae

Atopsyche flinti Sykora, 1991

Edpercivalia flintorum Ward, 2005

Isochorema flintorum Schmid, 1989

Hydropsychidae

Arcyphya flinti Wells & Neboiss, 2018

Cheumatopsyche flinti Gordon, 1974 (syn. of Cheumatopsyche comis Edwards & Arnold, 1961)

Homoplectra flinti Weaver, 1985

Hydropsyche carolae Oláh & Johanson, 2008

Hydropsyche flinti Malicky & Chantaramongkol, 2000

Hydropsyche flintorum Oláh & Johanson, 2008

Leptonema flintorum Muñoz-Quesada, 1997

Smicridea flinti Albino, Pes, & Hamada, 2011

Hydroptilidae

Alisotrichia flintiana Botosaneanu, 1977

Anchitrichia carolae Oláh & Flint, 2012

Costatrichia flinti Holzenthal & Harris, 1999

Hydroptila flinti Bueno-Soria, 1984

Ochrotrichia (Ochrotrichia) flintiana Kumanski, 1987

Rhyacopsyche flinti Wasmund & Holzenthal, 2007

Zumatrichia flinti Harris & Armitage, 2019

Kokiriidae

Mecynostomella flinti Johanson, 2003

Lepidostomatidae

Lepidostoma flinti Wallace & Sherberger, 1972

Leptoceridae

Amphoropsyche flinti Holzenthal, 1985

Atanatolica flinti Holzenthal, 1988

Nectopsyche flinti Oláh & Oláh, 2017

Nectopsyche flintorum Oláh & Oláh, 2017

Nectopsyche oliveri Oláh & Oláh, 2017

Oecetis flinti Quinteiro & Holzenthal, 2017

Triaenodes flintorum Holzenthal & Andersen, 2004

Triplectides flintorum Holzenthal, 1988

Odontoceridae

Madagocerum flinti Johanson & Oláh, 2009

Marilia flinti Bueno-Soria & Rojas-Ascencio, 2004

Philopotamidae

Alterosa flinti Blahnik, 2005

Chimarra (Chimarra) flinti Bueno-Soria, 1985

Chimarra (Curgia) carolae Flint, 1998

Chimarrhodella flinti Blahnik & Holzenthal, 1992

Wormaldia flinti Munoz-Quesada & Holzenthal, 2015

Polycentropodidae

Polycentropus carolae Hamilton & Holzenthal, 2011

Polyplectropus carolae Bueno-Soria, 1990

Polyplectropus flintorum Chamorro & Holzenthal, 2010

Polycentropus silex Hamilton & Holzenthal 2005

Pseudoneureclipsidae

Antillopsyche oliveri Wichard, 1985 (fossil)

Psychomyiidae

Paduniella flinti Johanson & Oláh, 2010

Psychomyia flinti Schmid, 1997

Rhyacophilidae

Rhyacophila carolae Harris, 1989

Rhyacophila flinti Schmid, 1970

Ephemeroptera (1 species)

Allenhyphes flinti (Allen, 1973) (Leptohyphidae)

Odonata (6 species)

Epigomphus flinti Donnelly, 1989 (Gomphidae)

Periaeschna flinti Asahina, 1978 (Brachytrinae; Aeshnidae)

Perissolestes flinti de Marmels, 1989 (Perilestidae)

Diptera (11 species)

- Bezzia flinti Spinelli, 1991 (Ceratopogonidae)
 Chrysops flinti Coscarón, 1979 (Tabanidae)
 Culicoides flinti Wirth, 1982 (Ceratopogonidae)
 Diphnia flinti Mathis, 1997 (Ephydriidae)
 Gonomyia flintiana Alexander, 1961 (Limoniidae)
 Molophilus flinti Alexander, 1967 (Limoniidae)
 Parypoconus flinti Spinelli & Wirth, 1984 (Ceratopogonidae)
 Pelinoides flinti Mathis, 1985 (Ephydriidae)
 Tipula flinti Alexander, 1970 (Tipulidae)
 Trichomyia flinti Wagner & Masteller, 1996 (Psychodidae)
 Xestochironomus flinti Sublette & Wirth, 1972 (Chironomidae)

Coleoptera (4 species)

- Anticura flinti Spangler, 1979 (Hydrophilidae)
 Hexanchorus flintorum Maier, 2013 (Elmidae)
 Pseudorygmodus flintispangleri (Moroni, 1985) (Sphaeridiinae;
 Hydrophilidae)
 Stenus flinti Puthz, 2007 (Staphylinidae, from Brazil)

Lepidoptera (3 species)

- Cuproxena flintana Brown, 1991 (Tortricidae; Tortricoidea)
 Paratrachea flinti Lalanne-Cassou & Pogue, 2003 (Hadeninae;
 Noctuidae; Noctuoidea)
 Sthenognatha flinti Todd, 1982 (Erebidae; Noctuoidea)

Phthiraptera (2 species)

- Pelmatocerandra flinti Emerson & Price, 1971 (Philopteridae;
 Ischnocera)
 Brueila flinti Cicchino & Castro, 1996 (Philopteridae;
 Ischnocera)

Hymenoptera (2 species)

- Notofenus flinti D.R. Smith, 1973 (Tenthredinidae)
 Triallan flintorum D.R. Smith, 2014 (Tenthredinidae)
